

## Fire Safety Advisor

This course is designed to provide participants with the skill, knowledge and experience to perform the duties of a Fire Safety Advisor and enhance the facilities emergency response expertise of a Workplace Health and Safety Officer. It provides knowledge in preparing for emergencies, operation of facility emergency systems, command and control, liaison with emergency services and communications needs to safely and effectively deal with facility emergencies.

### Nationally Recognised Training

On successful completion of this course, students will be issued with a nationally recognised Statement of Attainment for:

PUAFER001	Identify, prevent, and report potential facility emergency situations
PUAFER002	Ensure facility emergency prevention procedures, systems, and processes are implemented
PUAFER003	Manage and monitor facility emergency procedures, equipment, and other resources
PUAFER004	Respond to facility emergencies
PUAFER005	Operate as part of an emergency control organisation
PUAFER006	Lead an emergency control organisation
PUAFER007	Manage an emergency control organisation
PUAFER008	Confine small emergencies in a facility

### Course Participation

This course is limited to a maximum of 15 participants. Participants require the following for the course:

- Photo Identification
- Copy/knowledge of their workplace emergency response manual/procedures
- Warden identification markers for example your white cap, vest or similar
- Any checklists for the Chief Warden

### Duration and Location

This course is delivered in two days. Fire Safety Advisor training can be delivered at your premises (if suitable), or at a Chubb training facility.

## Content

- Fire Safety Advisor roles and responsibilities
- Prepare for facility emergencies
- Manage facility emergency systems
- The Emergency Planning Committee and Emergency Control Organisation
- Respond to emergency reports signals and warnings
- Evacuation procedures
- Safely confine emergencies
- Use of portable firefighting equipment/initial response equipment

## Language, Literacy and Numeracy

Participants are required to read and understand information presented in different ways such as safety data sheets or an emergency plan, write at least one paragraph and communicate clearly to successfully complete this course.

If you have any concerns or require any assistance with language or literacy skills please contact us prior to enrolment to discuss further.

## Assessment

You will be assessed with a combination of short answer written questions and practical activities.

## Recertification Training

A Fire Safety Advisor must hold a *current building fire safety qualification* issued within the last 3 years.

Chubb Training provides a one (1) day Fire Safety Advisor recertification course. To be eligible for the recertification course, you must have completed a nationally recognized Fire Safety Advisor course within the last 3 years. Chubb Training will not accept enrolments in the recertification course without viewing a copy of a relevant certificate (statement of attainment).

## Cost

Please contact the Chubb Training office on 1300 650 182 or via email [au\\_chubb.training@chubbfs.com](mailto:au_chubb.training@chubbfs.com) for course costs.

## Unique Student Identifier

The Australian government requires all students undertaking nationally recognised training to have a Unique Student Identifier (USI). Students can apply for a USI online at <http://www.usi.gov.au>.
